2025

www.FastFixTechnology.com

WHO ARE WE?

FastFixTechnology.com provides technical information and news on application specific fastening components and solutions for engineering across all industries, including automotive, rail, electrical + electronics, aerospace, offshore, power generation, construction + civil engineering, as well as other sectors.

300,000+
annual users
last 12 months

Through case studies, technical articles, and news from leading joining technology suppliers and experts, **FastFixTechnology.com** reinforces the critical value of integrating fastening technologies into the design process and adopting their intelligent use for in-place cost reductions, continuous product improvements, as well as safety and performance enhancement.

Ways we reach your target audience

FastFixTechnology.com provides a powerful and unique platform from which to target key markets. Attracting over 160,000+ annual users, the site delivers dedicated content supporting engineers, designers and end users who are searching for the latest developments and joining solutions as and when they need them.

The website is divided into industry relevant sections, enabling users to find the news most relevant to their market. A technical section gives access to expert white papers that cover key products, technologies and installation processes – providing crucial insight for users across all industries.

FastFixTechnology.com also has a consistent presence on social media sites including Twitter, LinkedIn and Facebook.

Mercedes-Benz

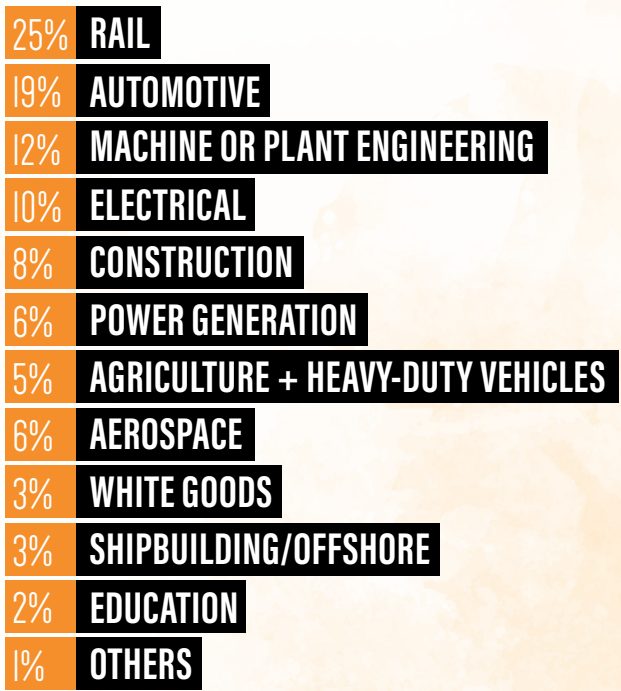

WHO WE REACH

FastFixTechnology.com is a uniquely focused platform that delivers to a specific and relevant audience across a wide range of industries. Advertising opportunities on the website range from high profile brand marketing such as headline banners, homepage takeovers, and MPUs, as well as exclusive advertising in the monthly newsletter that is sent to over 4,000 'opt-in' members.
